Subject: Australia IP office search exchange

I will be dropping off applications that are a part of the Aus.search exchange program. Each application will be accompanied with a folder that contains the search report as well as an evaluation sheet for the exchange. Please act on these cases ASAP to determine if a lack of unity is required and if required please attempt to get a telephone election. I will need the finished evaluation forms by COB Wednesday 10/15.

The applications are as follows:

10/018127 (Cook)

09/936957 (Cook) *-Restriction to Long-*

10/019356 (Canella)

Your assistance is greatly appreciated.

Thanks

Andrew Wang
